

Raman Lasers

FEATURES

- **Single wavelength or dual wavelength lasers**
- **Available with 532 nm and/or 785 nm lasers**
- **Analog and computer control** of laser operation
- **Narrow laser linewidths**
- **532 nm Diode-pumped solid state laser**
- **785 nm wavelength-stabilized laser**
- **Fiber coupled output** (105 micron multimode fiber)

Specifications

Wavelengths	532 nm, 785 nm
Linewidth	785 nm: 0.07 nm, 532 nm: <0.2 nm
Optical Power	785 nm: 495 mW, 532 nm: 100 mW
Power Input	90-264 VAC
Communication	USB
Fiber Optic Coupling	FC Connector
Dimensions	9.5" L x 8.5" W x 1.2" H
Weight	1.5 lbs
